About REPS India

REPS India is an independent, public register which recognises the qualifications and expertise of fitness professionals in India against international standards. REPS provides a system of regulation for instructors and trainers to ensure that they meet the global health and fitness industry's agreed standards.

REPS India serves to protect people who take part in exercise and physical activity and provides assurance and confidence to the public and employers that all professionals on the Register are appropriately qualified and have the knowledge, competence and skills to perform their role effectively. As REPS India will meet international standards, the aim is for all members to be internationally portable to other countries if they wish to work abroad.

REPS India has established a system of standards, qualifications and training that is truly world class and meets international standards from around the globe.

REPS India is the sole membership organisation in India that represents the International Confederation of Registers for Exercise Professionals (ICREPs). This is an international partnership between registration bodies around the world that register exercise professionals. There can only be one recognised register from each country.

One of the important purposes of ICREPs is to promote portability of qualified exercise professionals through the co-operation and affiliation of national registration schemes. ICREPs exists to serve the worldwide community of exercise professionals through an agreed framework of knowledge and competency standards which are set for professionals and agreed internationally. They are recognised through an independent registration process.

REPS India has portability agreements with the following member registers of the Confederation:

- ◆ Australia
- ◆ Ireland
- ◆ New Zealand
- ◆ Poland
- ◆ South Africa
- ◆ United Arab Emirates
